01 Introduction

What is Preseem?

Preseem is an Edge Network QoE Solution that enables proactive management of the network and subscriber experience to achieve higher customer satisfaction while lowering operational costs and increasing revenue.

Mission

To enable local and regional ISPs to thrive by solving network problems with products that people love.

Vision

To be a trusted, long-term network solutions partner to all local and regional ISPs in a world where they are taking market share from the tier one providers.

Tagline

Premium QoE. Precise Data. Preseem

Tone Of Voice

Preseem was founded by people with decades of experience in the networking space. One of our founders even ran their own WISP. Also, since our inception, we've been refining Preseem based on feedback from our hundreds of customers worldwide.

As a result, we've developed a close relationship with our customers, deep knowledge of the issues they're facing, and familiarity with the topics they're interested in reading about. These things, along with our mission and vision, help define the voice and tone we use when writing blogs and other articles. Below are the main attributes to consider:

Helpful

We have a lot of experience and in-house knowledge and we like to share it with our audience to help them however we can. Our posts are often educational and aimed at solving problems that our customers or potential customers may be experiencing. We also sometimes write explanatory or intro-level posts for those outside the industry or who're thinking of starting their own WISP.

Confidant

Preseem was founded and is led by network experts. We know what we're talking about and we deliver our message with a quiet confidence, though we're never arrogant. In fact, quite the opposite!

Humble

We may be experts but no-one can know EVERYthing, so we don't pretend to. We are genuine and down-to-earth with a gentle sense of humor. We try not to brag or oversell our product's capabilities, though it's OK to include client testimonials in our posts as examples of honest feedback that complement a specific point.

Optimistic

As well as being helpful and quietly confident, our copy should include an enthusiastic positivity and optimism without going overboard. We're problem solvers with a mission to help smaller ISPs take on the big guys, so having a sense of optimism in the copy seems like a natural and essential element.

Friendly

We are approachable, good listeners who want to make life easier for our customers and for their customers as well. Whether we're passing along helpful tips or translating technical jargon into everyday language, we want our audience to know that we're a trusted partner with their best interests at heart.

02 Logo Symbol, Wordmark & Tagline

The Logo

The Preseem logo consists of two elements; the icon and the wordmark. It's an instantly recognizable brand element and should be represented consistently throughout our product and marketing efforts.

The logo should always try to exist with the symbol and wordmark together. In no way should the logo be modified, distorted, or redrawn.

Logo

Icon

Wordmark

Logo Clear Space

A horizontal logo lock-up should be used in cases where there is plenty of horizontal space or where vertical space is limited

Icon

The Preseem icon is used on all above the line marketing materials and on our products.

Synonymous with the word Preseem, it can be used independently.

Improper Logo Use

DON'T RECOLOUR THE LOGO

DON'T OUTLINE THE ICON

DON'T DISTORT THE ICON

DON'T ADD GRADIENT TO ICON

DON'T RECOLOUR THE LOGO AND WORDMARK DIFFERENT COLOURS

DON'T USE SIMILAR COLORS TO THE BACKGROUND

DON'T USE ANOTHER TYPEFACE

DON'T STACK LOGO AND WORDMARK

03 Brand Colours

Color Palette

The brand color palette is meant to bridge marketing communications and product interface in order to enhance familiarity and visual recognition.

The dark and light blue are closely tied to the colors you see in product, while yellow, red, and teal are brought in to represent the colorful content throughout marketing.

Dark Blue
Hex #002866
RGB R:0 G:40 B:102
HSL H:216.47 S:1 L:0.2
CMYK C:40% M:24% Y:0% K:60%

#003B8F

#0055CC

LEARN MORE

The image shows a digital banner with a blue background and light blue circular patterns. It features the Preseem logo in the top left, the main title 'Decorative Color' in large white font, and a subtitle 'Sub Text Goes Here' below it. On the right, there is a stylized illustration of a woman with black hair and glasses, wearing a green safety vest over a dark blue long-sleeved shirt. She is holding a green laptop in her left hand and a white clipboard with a yellow clip in her right hand. The clipboard contains a simplified floor plan diagram. At the bottom left, there is a dark blue rounded rectangular button with the text 'LEARN MORE' in white capital letters.

04 Typography

Primary Typeface

Open Sans is the primary typeface. It's a clean, modern, sans-serif typeface that works well for display copy, body text, and everything between.

We always use Open Sans for our headline style, since it's our primary typeface. Headlines are always written in uppercase.

Secondary Typeface

Maven Pro is the secondary typeface. It is an acceptable serif typeface for secondary copy, navigation items, or footer items.

It may be used when the primary fonts are unavailable.

Pattern with Tagline

The logo for 'preseeem' features a stylized icon on the left consisting of a vertical line of seven dots of varying sizes, with a larger dot at the top and a smaller one at the bottom, and a small dot to the left of the middle. To the right of this icon, the word 'preseeem' is written in a lowercase, sans-serif font.
